MORTUARIES AND CEMETERIES

Dignity MEMORIAL

Celebrating Community Cultures

Meeting the needs of our diverse community involves gaining a solid understanding of varied cultural, spiritual and emotional traditions. As we evolve our cemetery and funeral home we continue to explore educational opportunities that help us gain this comprehensive understanding to better equip us to respond to the request of our families and organized community groups.

Through the years Crown Hill has continued to work with groups to respond to the needs of a growing diverse community. In 2007 we responded to the needs of the Asian Community, which resulted in the creation of our Asian Garden, Colorado's first Feng Shui burial garden. In 2005 we had a blessing and a dedication of Our Lady of Guadalupe.

In 2009 we had a new event **"DIA DE LOS MUERTOS- "Day OF THE DEAD"** which is a celebration of life that honors those who have passed away. This event was to meet the expanding request of our Hispanic community. Traditions include building private alters honoring the deceased, a beautiful art exhibit, creating sugar skulls during a workshop for children and adults, the traditional Aztec dance and Mariachi performance

Crown Hill Funeral Home and Cemetery will always be a place where community can come and be at peace in places that respond to their emotional, spiritual and cultural needs. As we continue to create programs within the cemetery that respond to various groups within our community. We will still uphold our dedication to provide all services with dignity and compassion.
